

MONOCLONAL ANTIBODY

For research use only. Not for clinical diagnosis.

Catalog No. KTR001-100

Anti-human Adiponectin Monoclonal Antibody

BACKGROUND

Adiponectin is a multimeric adipocyte-specific secretory protein that regulates energy homeostasis, lipid metabolism, and insulin sensitivity with direct anti-diabetic, anti-atherogenic and anti-inflammatory properties.

Product type Monoclonal antibodies

Host Mouse

Purification Protein A affinity chromatography

Form Liquid Volume 100ug

Concentration 1mg /mL in PBS, pH7.4 **Specificity** Human Adiponectin

Antigen The silkworm, Bombyx mori (baculovirus)-derived a recombinant human Adiponectin

Isotype IgG1 **Clone** 56

Application notes WB, Direct ELISA

Recommended use

Recommended dilutions

Western Blot: 1-2ug/ml for ECL Direct ELISA: 0.5-2ug/ml

Optimal dilutions/concentrations should be determined by the end user.

Cross reactivity Human Adiponectin. Other species has not been tested.

Storage Store at -20°C

Avoid repeated freezing and thawing.

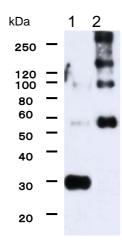

Figure: Western blot analysis of a recombinant Adiponectin.

Lane 1: Denaturing recombinant Adiponectin.

Lane 2: Non-denaturing recombinant Adiponectin.

The protein bands were visualized with ECL detection system.

For research use only. Not for clinical diagnosis.
