

LKT Laboratories, Inc, (LKT) cat#F1655

Description

A NSAID inhibits prostaglandin synthesis and adherence of polymorphonuclear leukocytes. It has antiproliferative effects on human colon cancer cells.

Specifications

Cas No.: 31879-05-7

Product ID: F1655

Product Name: Fenoprofen

Chemical Name: α -Methyl-3-phenoxybenzeneacetic acid

Synonym: Lilly 53838

Formula: Wt. 242.27

Boiling Point: 168°C-171°C

Purity : 97%

Store Temp: Ambient
