

**Purified Anti-PI(3)P Antibody  
Mouse Monoclonal IgG**

**Product No. Z-P003**

<b>Quantity:</b>	50µg	100µg	250µg
<b>Storage:</b>	Store at 4 °C for up to 30 days. Aliquot and store at -20 °C if longer storage is necessary. Avoid repeated freeze/thaw cycles.		
<b>Concentration:</b>	1 mg/mL		
<b>How Supplied:</b>	Clear solution, diluted to the indicated concentration in PBS, pH 7.4.		
<b>Antibody Subclass:</b>	IgG2a		
<b>Suggested Use:</b>	<p>Z-P003 recognizes PtdIns(3)P, biotinylated PtdIns(3)P, or fluorescent PtdIns(3)P at the following concentrations:</p> <p><u>1 µg/mL</u> for PIP Plate™ ELISA, <u>1.5 µg/mL</u> for AlphaScreen,™ <u>3 µg/mL</u> for Fluorescent Polarization, and <u>5 µg/mL</u> for Cellular Immunofluorescence.</p> <p>Other <i>in vitro</i> and cellular applications are possible using this antibody, but have not been verified by Echelon Biosciences.</p> <p><i>These suggested uses are intended as a starting point for optimization, and the optimal antibody concentration and other experimental conditions for each application should be determined by the user.</i></p>		
<b>Specificity:</b>	<p>Z-P003 reacts primarily with the head group of the indicated phosphoinositide (of synthetic or natural origin), but has some cross-reactivity with other phosphoinositides depending on the assay format. Not all antibodies are validated for use in all types of assays. Please check the updated technical data sheets on our web site or call our customer service department (toll free, 1-866-588-0455) for antibody application information and questions.</p>
