IMPORTANT: Sodium azide forms explosive compounds with heavy metals. These products contain <0.05% (w/w) azide which with repeated contact with lead and copper commonly found in plumbing drains may result in the buildup of shock sensitive compounds. Dispose in accordance with regulations from your institute.

APPLICATION: Optimal antibody pairs and antigen standards for assaying NHP Th1/Th2/Th17 7-Plex Panel. To be used in conjunction with the AimPlex Basic Kit for Premixed Panels (PN: U100005) and a diluent kit.
